

Meet the Trustees of the Peninsula Medical Foundation (PMF)
Welcome aboard Professor Terence Lewis MBE

The Peninsula Medical Foundation (PMF) relies on the dedicated work of its Trustees and Volunteers. Their guidance, expertise and support are generally hidden away from public gaze, but their contributions are vital and mostly unsung. We thought our readers would like to know a little more about the band of local personalities comprising of our Board of Trustees.

The Board of Trustees recently welcomed Professor Terence Lewis MBE to its number. Terence was a prominent cardiac surgeon who inaugurated and directed the prestigious Cardiac Surgery Unit at Derriford. Patients and family attending Derriford will note that the cardiac wing at Derriford bears his name in recognition of the great contribution he made to cardiac surgery here in the SW. Prior to this he was a consultant at Barts and The London Hospital during which time he operated on many patients from Plymouth and the South West. He was a great proponent of the new medical school in Plymouth and we are honoured to have him join us. To read more of his background and work for PML go to: [https://www.pml.ac.uk/News and media/News/Former Plymouth Marine Laboratory Chair of Trustee](https://www.pml.ac.uk/News_and_media/News/Former_Plymouth_Marine_Laboratory_Chair_of_Trustee)
